Central Bus Station with signboard 4a - Strathmore. Accessible by public transport. The University is located on Ole Sangale Road (north of Nairobi).
Master of Science: Information Technology (MSc. IT)

THE COURSE

The Master of Science in Information Technology (MSc. IT) is a programme designed to meet the needs of the market for expertise in Information Technology (IT). The programme is designed to meet the increasing demand in the workplace for IT professionals with a broad and sound knowledge of both the technical and managerial skills. Students are prepared to work as information management personnel, systems designers and developers, senior level managers in IT, academics in the IT, etc. The programme opens the way for candidates who may wish to develop further their knowledge in IT through research, with the intention of progressing to doctoral levels.

CAREERS

Students are prepared to work as information management personnel, systems designers and developers, senior level managers in IT, academics in IT, etc. The programme opens the way for candidates who may wish to develop further their knowledge in IT through research, with the intention of progressing to doctoral levels.

LEARNING FACILITIES

E-Learning

Strathmore University is a pioneer in the use of ICT. Our e-learning system enables students to view the coursework material that lecturers have posted, submit their finished assignments, update their calendars, interact and chat with fellow students, participate in various fora and communicate with their lecturer. Students have access to numerous computer laboratories, unlimited Internet, a wide range of software and e-mail. A wireless network enables students with laptops access to the network from various locations around the campus.

Library

The library complex and reading room are spacious, with an atmosphere that is highly conducive to private study and research. The wide range of material contributes to the university’s excellent academic performance. The library system is available online.

ENTRY Requirements

a) The following are eligible for admission into the Master of Science (IT) programme:
   (i) Holders of First Class or Upper Second Class Honours degrees in a Computer Science or IT discipline from recognised universities; or
   (ii) Holders of other related qualifications from recognised universities, considered by the Academic Council as equivalent to a First Class or Upper Second Class degree in Computer Science or IT discipline; or

EDUCATION FINANCING

To help you manage your education financing, Strathmore has partnered with Chase bank & International Finance Corporation to offer low interest loans to students pursuing degrees and diplomas at the University. Students can also get loans from the Higher Education Loans Board (HELB). The University also has an arrangement to provide 4 year tuition loans with KIVA. The repayment period is five years which commences one year after graduation. Early repayments are allowed.
