Bachelor of Science in Telecommunications

Strathmore University
Faculty of Information Technology

Achieve excellence in your chosen profession
Bachelor of Science in Telecommunications

The Bachelor of Science in Telecommunications is a course that prepares candidates to become specialists in the Telecommunications industry and enabling them to address the needs of the modern business environment. It is designed to meet the increasing demand in the market place for IT professionals with a wide knowledge of business management, technical skills in telecommunications and the capacity to harness and implement ICT strategies, taking advantage of emerging technologies.

The programme focuses on the strategic use, development, implementation and management of telecommunication systems and devices. It meets the need to have graduates with good computer and telecommunications skills in the emerging knowledge economy.

CAREERS OPPORTUNITIES

- Project Managers,
- Network engineers,
- Network Administrators,
- Telecommunication Systems Analysts,
- Data Communications Analysts,
- Telecommunication Software Developers,
- Telecommunication Managers etc.

Studying in Strathmore definitely gave me an upper edge. It enabled me to secure an internship at the World Bank which in turn fanned my love for documentary photography. The values I took from Strathmore have enabled me to be a well rounded person who can excel in whatever I put my mind to.

Faith Kanja, Bachelor of Science in Telecommunications Graduate

Why Strathmore University?
